Welcome to the June 2011 edition of the Bradenton Herald/Lakewood Ranch Herald's Healthcare Services and Physicians Directory, servicing Manatee County and surrounding areas. The following pages contain pictorial listings of local physicians, listed alphabetically by specialty, who are ACCEPTING NEW PATIENTS. Services of local hospitals, clinics, healthcare facilities and other health related businesses are also listed by specialty. Specialty headings are provided in English and Spanish. The specialty index can be found on page 8. Each page is also indexed by physician category in both English and Spanish.

In addition to the pictorial listings, an alphabetic index is available on pages 99 through 101. This index provides a listing of all advertising physicians by last name, again referencing their ad page.

This directory is also available ON-LINE at www.bradenton.com/specialpublications. The online version is the most comprehensive physician directory in the area.

In order to keep current with new physicians coming into the area and changes in existing physician offices, the Bradenton Herald/Lakewood Ranch Herald's advertising department publishes this handy directory twice a year. Look for the next issue in the Bradenton Herald/Lakewood Ranch Herald January 2012.

Never miss a word with a FREE amplified phone

If you are a Florida resident with a certified hearing loss, a new telephone can help make conversations easier. The phone is offered at no cost through the nonprofit Florida Telecommunications Relay, Inc. The Clarity W425 Pro Cordless amplifies incoming sounds up to 45 decibels, almost four times louder than a standard phone. It is hearing aid compatible, with large backlit numbers and a bright visual ringer. Ask about the Clarity W425 Pro or our other specialized phones for yourself or a family member. Florida is speaking up for clearer communication.

What is Private Medicine?

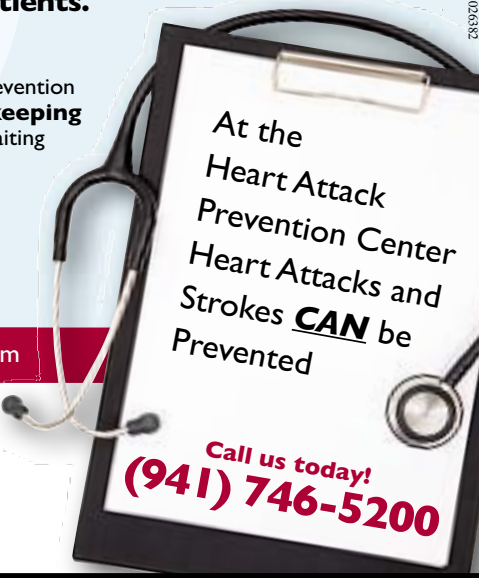

JOHN LOURIE, MD, FACC
Medical Director

Private medicine, sometimes called “concierge” medicine, is a new and better way of delivering health care to patients. It eliminates the influences that distort and dilute the doctor-patient relationship, and it provides a physician the ability to focus intensely on serving a small group of patients.

Heart Attack Prevention Center offers:

- An innovative treatment program focused on **eliminating** heart attacks and strokes.
- Access to your doctor 24/7 by personal cell phone, email; even house calls: true **personal care**.
- A center for disease prevention and reversal intent on **keeping you well** instead of waiting for you to get sick.
- Your entire medical record on a memory stick that fits on your keychain.

At the
 Heart Attack
 Prevention Center
 Heart Attacks and
 Strokes **CAN** be
 Prevented

ENDOCRINOLOGY / THYROID

ENDOCRINOLOGIA / TIROIDES

Endocrinology is a branch of medicine dealing with the disorder of the endocrine system and its specific secretions called hormones. The thyroid is one of the largest endocrine glands in the body. The thyroid controls how quickly the body burns energy, makes proteins and controls sensitivity to other hormones..

HOME COMPANIONS / HOME HEALTH CARE

ACOMPANAMIENTO EN EL COMICILIO

HOME COMPANIONS – Companion services fall into an area called non-medical care and typically encompass activities such as companion for recreational activities, meal preparation, light housekeeping as well as some laundry and grocery shopping. Companions also run errands, such as picking up prescriptions and going to the bank and the post office. Caregivers can not bathe, dress, feed, lift or provide for personal hygiene or dispense medications.

HOME HEALTH CARE – Medicare refers to home health care as home visits by professionals including nurses, doctors, social workers, therapists, and home health aides for minimizing the effects of a disability and/or illness, including terminal illness.

What is home health?

Home health is a physician-ordered service designed to enable patients to maximize their ability to function safely at home by teaching patients and their caregivers how to provide effective, appropriate care. Symptom and disease management, medication management, mobility, home safety issues and a wide range of education are among the many needs covered. Our services are available 7 days a week, 365 days a year, depending on your needs.

A HOME HEALTH CARE PROVIDER...

Our organization provides:

- Skilled Nursing
- Psychiatric Nursing
- IV Therapy
- Wound Care
- Physical Therapy
- Occupational Therapy
- Speech Language Pathology
- Medical Social Work

Expanding Trauma Care

HCA and USF Health have entered into an affiliation agreement to improve access to quality trauma care and services in Florida. The agreement includes two West Florida hospitals: Blake Medical Center and Regional Medical Center Bayonet Point. Both facilities have received state approval on their extension request to move forward with the development of trauma programs which will provide this highly specialized level of emergency care to communities identified by the state as underserved. Both hospitals plan to submit their completed application to the state in 2011 and anticipate being granted provisional status to operate trauma programs in fall 2011.
