Providing World Class Care in Bradenton & Lakewood Ranch

- ▶ We are a proud recipient of the American Society of Clinical Oncology (ASCO) 2011 Clinical Trials Participation Award.
- ▶ With 70 national trials now open, our clinical trial research program offers exceptional access to patients.
- ▶ FCS is the largest privately-owned oncology/hematology practice in Florida.
- ▶ State-of-the-art equipment such as CT/PET scanners provide superior diagnostic information.

Emergency Services from the Manatee Healthcare System

WE HAVE YOU COVERED... 24/7

Families in Manatee County and the surrounding communities are fortunate — you can count on prompt, specialized emergency care from the hospitals of the Manatee Healthcare System.

At Manatee Memorial Hospital and Lakewood Ranch Medical Center, you have access to the care you need, when you need it ... **right here at home.**

Rapid response ... medical expertise ... compassionate care are all available to the residents of our community. Our emergency medical teams are highly experienced in managing health emergencies for people of all ages.

The Manatee Healthcare System is geared up and ready to respond to life-threatening emergencies with fast, high-quality care ... **24 hours a day, 7 days a week.**

Welcome to the January 2012 edition of the Bradenton Herald's Healthcare Services and Physicians Directory, servicing Manatee County and surrounding areas. The following pages contain pictorial listings of local physicians, listed alphabetically by specialty, who are ACCEPTING NEW PATIENTS. Services of local hospitals, clinics, healthcare facilities and other health-related businesses are also listed by specialty. Specialty headings are provided in English and Spanish. The specialty index can be found on page 8. Each page is also indexed by physician category in both English and Spanish.

In addition to the pictorial listings, indexes are available on pages 93-97. Indexes provide a listing of all advertising physicians by last name, again referencing their ad page and category of specialty.

This directory is also available ON-LINE at www.bradenton.com/specialpublications. The online version is the most comprehensive physician directory in the area.

In order to keep current with new physicians coming into the area and changes in existing physician offices, the Bradenton Herald's advertising department publishes this handy directory twice a year. Look for the next issue in the Bradenton Herald/Lakewood Ranch Herald June 2012.

ASSISTED LIVING

RESIDENCIA ASISTIDA

Assisted living facilities (ALFs) provide supervision or assistance with activities of daily living; coordination of services by outside health care providers; and monitoring of resident activities to help to ensure their health, safety and well-being. Assistance may include the administration or supervision of medication, or personal care services provided by a trained staff person.

Continues through page 11

INDEPENDENT AS YOU WANT, ASSISTANCE AS YOU NEED IT

You can be as independent as you care to be. Live on your own schedule, pursue the things that interest you, and do what feels comfortable to you at *The Windsor*.

For many, *The Windsor* represents the peace of mind that comes from being in control of your life. And should you need them, *The Windsor* offers a menu of services available to assist you, whether it be medication assistance, specialized diets, or other daily living needs. Your unique plan provides the most individual personal services in a most cost effective manner. As your needs or wants change, your flexible combination of services changes with you.

What is Private Medicine?

JOHN LOURIE, MD, FACC
Medical Director

Private medicine, sometimes called “concierge” medicine, is a new and better way of delivering health care to patients. It eliminates the influences that distort and dilute the doctor-patient relationship, and it provides a physician the ability to focus intensely on serving a small group of patients.

Heart Attack Prevention Center offers:

- An innovative treatment program focused on **eliminating** heart attacks and strokes.
- Access to your doctor 24/7 by personal cell phone, email; even house calls: true **personal care**.
- A center for disease prevention and reversal intent on **keeping you well** instead of waiting for you to get sick.
- Your entire medical record on a memory stick that fits on your keychain.

DID YOU KNOW?

Your heart beats 101,000 times a day. During your lifetime it will beat about 3 billion times and pump about 400 million litres (800 million pints) of blood.

CLINICAL RESEARCH *INVESTIGACIÓN CLÍNICA*

Clinical research forms a division of therapeutic science that ascertains the efficiency and security of therapeutic plan, medicines, medical devices and products for diagnosis. This branch of medicine also deals with the act of preventing, treating or relieving the symptoms and the diseases affecting a body. The research process is performed with the help of government medical agencies, universities, hospitals and private research industries. The medical research outcomes form the key factor that helps the government to take a decision on whether to accept a treatment plan or medication.

Promoting health through clinical research...
Your participation in clinical research studies is a critical element in developing new medications, devices, or treatments.

Participate Today!

Commonly Enrolling Trials

- Chronic Obstructive Pulmonary Disease (COPD)
- Diabetes
- Epilepsy
- Gout
- High Blood Pressure
- Influenza (Flu)
- Irritable Bowel Syndrome (IBS)
- Multiple Sclerosis
- Osteoarthritis
- Parkinsons
- Rheumatoid Arthritis
- Vaccine

Stipend for time and travel. No insurance is required.

DENTISTRY / PEDIATRICS

ODONTOLOGÍA / PEDIATRICS

Pediatrics dentists prevent, diagnose and treat diseases and injuries of the teeth and gums for children. Some also treat malformations of the teeth and jaws.

DERMATOLOGIC SURGERY

CIRUGÍA DERMATOLÓGICA

Dermatologic surgeons have completed medical school plus a year of internship and specialized education in the form of at least three years of residency training in an accredited program that includes a core curriculum in the therapeutic, reconstructive and cosmetic treatment of skin conditions.

DIALYSIS
DIÁLISIS

Dialysis is a procedure that is a substitute for many of the normal duties of the kidneys. The kidneys are two organs located on either side of the back of the abdominal cavity. Dialysis can allow individuals to live productive and useful lives, even though their kidneys no longer work adequately. In the United States, there are over 200,000 people who use dialysis techniques on an ongoing basis.

Better care can mean better quality of life.

DaVita® now has a dialysis center in your neighborhood.

DAVITA LAKEWOOD RANCH DIALYSIS
8470 Cooper Creek Blvd., University Park, FL

Call us at **(941) 359-0676** to schedule a tour of the dialysis center and find out how DaVita's personalized approach to kidney care can improve your quality of life.

For one of the world's best sources for kidney care-related articles, recipes, tools and more, visit DaVita.com.

ENDOCRINOLOGY / THYROID

ENDOCRINOLOGIA / TIROIDES

Endocrinology is a branch of medicine dealing with the disorder of the endocrine system and its specific secretions called hormones. The thyroid is one of the largest endocrine glands in the body. The thyroid controls how quickly the body burns energy, makes proteins and controls sensitivity to other hormones.

DID YOU KNOW?

- *A hearing aid is the 2nd most widely used assistive technology device after the walking cane*
 - *28 million Americans have some form of hearing loss*
- *3 out of 100 school children are affected by hearing impairment that can lead to educational and social concerns*

GERIATRIC MEDICINE

MEDICINA GERIÁTRIC

Geriatric medicine is a branch of medicine that focuses on the health care of the elderly. It aims to promote health and to prevent and treat diseases and disabilities in older adults.

HEARING AIDS

AUDÍFONOS

Hearing aids are available in several styles including ITE (in the ear), ITC (in the canal), CIC (completely in the canal) and BTE (behind the ear).

Choose Florida Home Health for your Medicare patients

What is home health?

Home health is a physician-ordered service designed to enable patients to maximize their ability to function safely at home by teaching patients and their caregivers how to provide effective, appropriate care. Symptom and disease management, medication management, mobility, home safety issues and a wide range of education are among the many needs covered. Our services are available 7 days a week, 365 days a year, depending on your needs.

A HOME HEALTH CARE PROVIDER...

Our organization provides:

- Skilled Nursing
- Psychiatric Nursing
- IV Therapy
- Wound Care
- Physical Therapy
- Occupational Therapy
- Speech Language Pathology
- Medical Social Work
- Home Health Aides
- Patient Education

The qualifications for Medicare home health care are:

- A patient must be under the care of a physician who has ordered treatment or services we provide
- A patient has had a recent illness, injury or change in a condition which requires skilled care
- A patient is homebound. A patient shall be considered homebound if they have a condition, due to illness or injury, ability to leave home without the assistance of another person or the that restricts their ability to leave home without the assistance of another person or the aid of a device (i.e. walker, cane, wheelchair) or if they have a condition that is medically contraindicated for leaving home.

IT'S ABOUT TIME

When traumatic injury occurs, every second counts. Studies show, the sooner patients get to a designated trauma center, the better their chance for survival.

At Blake Medical Center, we thought it was **ABOUT TIME** there was a trauma center *close to home*.

We're proud to now be designated a provisional Level II Trauma Center.

DID YOU KNOW?

Oxygen is necessary for the chemical reactions inside a cell. (The word oxygen is from the Greek meaning acid burning.) These cellular respirations break up nutrients from food and set free the energy for driving the cell's life process. A pretty important process considering your breathe up to 23,000 times a day.

OPTOMETRY
OPTOMETRÍA

Optometrists determine the need for glasses or contact lens, prescribe optical correction, and screen for abnormalities of the eye. In some states optometrists can prescribe a limited amount of drugs to help diagnose and treat certain eye conditions.

ORTHOPEDIC SURGERY
CIRUGÍA ORTOPÉDICA

An orthopaedic surgeon diagnoses and treats, both medically and surgically, diseases and injuries of the bones, joints, muscles, ligaments and tendons.

OSTEOPOROSIS

OSTEOPOROSIS

Osteoporosis means “porous bones.” It occurs when bones lose an excessive amount of their protein and mineral content, particularly calcium. Over time, bone mass, and therefore bone strength, is decreased. As a result, bones become fragile and break easily.

PAIN MANAGEMENT

TRATAMIENTO DE DOLAR

Pain management specialists are generally anesthesiologists who treat chronic pain either chemically or physically in order to ensure quality of life to the patient.

In marking our Tenth Anniversary- here are 10 things you should know about Dattoli Cancer Center & Brachytherapy Institute:

- ✓ 1. Drs. Dattoli & Sorace treat only PROSTATE CANCER
- ✓ 2. They have worked together more than 25 years
- ✓ 3. Their treatment is non-surgical D.A.R.T
- ✓ 4. They pioneered combination therapy
- ✓ 5. Men from all over the world come there
- ✓ 6. the Center is the only one like it, anywhere
- ✓ 7. They lecture all over the country
- ✓ 8. Dr. Dattoli “wrote the book” on seed implant
- ✓ 9. They have successfully treated more than 15,000 men
- ✓ 10. their published cure rate is the best in the world
 (16 years - Journal of Oncology, July 2010)

When the best in the world is in your backyard, why would you go to anywhere else for your prostate cancer care?

Dattoli Cancer Center – right here at home
 2803 Fruitville Road • Sarasota, FL 34237

The area's home of the
SIEMENS ARTISTE

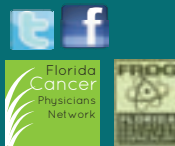

**160 reasons we provide
 the best in cancer care.**

160 MLC Multileaf Collimator,
 the BEST-IN-CLASS.

Daily Image guided radiation treatments (IGRT) allow for cutting edge precision in radiation therapy and is available right here at home - in Manatee County. The benefit of the Siemens Artiste is that it combines fast leaf movement and excellent resolution, resulting in radiation therapy treatments with surgeon-like precision. In addition, the Artiste spares healthy surrounding tissue regardless of the tumor shape and provides shorter treatment sessions. Manatee Cancer Center is providing the best tool you can get to fight cancer.

VITRO RETINAL SURGERY
CIRUGÍA RETINIANA DE VITRO

The vitreoretinal surgeon is trained as a general ophthalmologist first, and subsequently further specializes in the medical and surgical management of vitreoretinal disorders such as age-related macular degeneration (AMD), diabetic retinopathy and diabetic vitreous hemorrhage, macular hole, retinal detachment, epiretinal membrane, CMV retinitis and many other ophthalmic conditions.

VEIN TREATMENT
MEDICINA VASCULAR

Vein treatments include non-surgical and minimally invasive treatments. Varicose vein therapy is used to treat enlarged veins that have problems with their valves.

Whatever your calling, when

MIND BODY SPIRIT

come together, you
can achieve greatness

Lake Erie College of Osteopathic Medicine

Can you hear the calling?

When Mind, Body and Spirit work together. *Truly together.* The impossible becomes suddenly possible.

This is what we teach at LECOM. This is who we can help you become. To see human potential taken to the next level and beyond. To prevent disease and to treat it. To give hope. It's what can happen when you learn to truly believe in yourself and when your mind, body and spirit truly become one.

For more information about our prestigious and comprehensive medical, dental and pharmacy programs, please visit us at lecom.edu, or call the Bradenton campus at (941) 756-0690.

AllSports Medicine

AllSports Medicine is the area's only comprehensive sports medicine program focused solely on the care of young athletes. Our multidisciplinary team has the expertise to handle athletic injuries and address medical concerns that can affect a young athlete's health and performance, with specialists in pediatric emergency care, pediatric orthopaedic surgery, pediatric radiology, pediatric neurosurgery, pediatric cardiology and sports nutrition.

Our Sports Rehabilitation Program features All Children's physical therapists, occupational therapists and athletic trainers who specialize in providing age-appropriate and sport-specific rehabilitation to return athletes to their sport in healthy condition, prepared with the knowledge to avoid re-injury.

Sports Rehabilitation Services are available at:

All Children's Outpatient Care, **Sarasota**

5881 Rand Boulevard, **941-927-8805**

All Children's Hospital, **St. Petersburg**

501 6th Avenue South
